THE REPLY FILED 22 October 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

a) The period for reply expiresmonths from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of 2. NOTE: The new limitations in the proposed amendment of base Claim 16, and the introduction of proposed new base Claim 108 and Claims 109-115 depending therefrom, require further search and consideration before allowability can be definitely ascertained. The proposed amendment of base Claim 16 now includes the new limitation reciting a structural embodiment wherein only one capacitor (i.e., "at least one capacitor") is "mounted atop and at a diagonal to the first and second conductors..." in addition to the embodiment of more than one capacitor being so mounted. Also, more than one capacitor is not necessarily descriptive of "a capacitor array" recited in other claims. Therefore, the "diagonal" disposition of the "at least one capacitor" of base Claim 16 needs further search and consideration. Proposed new base Claim 108 appears to be a broader version of the proposed amended Claim 16 which necessarily requires a first search on the merits.
